AMERICAN SOCIETY OF PLUMBING ENGINEERS
A NON-PROFIT ORGANIZATION - Local Chapters
are not authorized to speak for the Society

Gary Borgmann, CPD
President, C.I. Chapter of ASPE

By now everyone is looking forward to, or planning their Thanksgiving holiday, unless you've jumped past it and went straight for Christmas like most of the retailers! Personally, I don't like to have the next holiday shoved down my throat until the present holiday is past! I don't think that I am alone in these feelings! I guess I'm not a very good little "consumer"! Either way, I hope everyone enjoys November and especially time with their families during Thanksgiving!

We had another incredible lunch-n-learn seminar session for October! Jennifer Rook with Liquitech gave us a very in-depth look into the hazards of not having a program to control Legionella, and the benefits to Copper Silver Ionization treatment. This was a very educational discussion with lots of questions and answers! I think it would make a great seminar at one of ASPE's Conventions or Symposiums. This month's meeting will be sponsored by Thomas Associates. We have Joe Penza with Acorn Controls presenting on Bather Safety and ASSE Standards. You'll find the speaker bio and program outline elsewhere in this issue. I hope you will be able to take the time to attend.

EVANSVILLE SATELLITE

Sam Schenk, CPD
President, Evansville Satellite
Chapter of ASPE

Hello Evansville ASPE!

It's hard to believe football season is halfway over and the holidays are right around the corner. With only six weeks till Christmas I hope everyone can take a break from our busy schedules and slow down to enjoy time with our loved ones.

We had a great turnout for our October Luncheon presented by Michael Tierney with Metropolitan Industries. I want to thank you all for attending and Michael for an informative presentation.

Everyone should have received the invitation for our November meeting that will actually be on December 3rd due to Thanksgiving. The meeting will be at our usual location, the Red Fez downtown. The topic will be **Pathogen Control** presented by Jeff Gallagher with Viega. I feel this is a very important topic all plumbing engineers/designers should be educated on, especially given the recent legionella outbreaks in New York City this past summer. Please remember to RSVP by Tuesday, December 1st.

Our next meeting will be on January 28th. Please keep an eye out for the email detailing the topic and presenter.

Specialists in Engineered Components and Systems
 to Convey and Contain Corrosive Fluids

Dann Holmes

ASPE Region 2 Affiliate Liaison

October was a very busy month for the plumbing industry. The weather was perfect in St. Louis, MO during the ASPE Technical Symposium. The technical sessions offered valuable information, educational enhancements, and countless opportunities to network with our peers.

Taking advantage of the interaction with fellow ASPE members from around the country, I looked for better ways to increase my effectiveness as your Region 2 Affiliate Liaison. Some of these ideas are being considered; I will let you know in a future article if any of them develop into action items.

The Plastics Pipe Institute (PPI) www.plasticpipe.org held their fall conference in Nashville, TN. To help our engineering community, they recently released a new, FREE, online software tool that aids in designing plastic pressure pipe systems using PEX, PE-RT, and CPVC.

The PPI Plastic Pipe Design Calculator was developed by the PPI association's Building and Construction Division (BCD). You can download the calculator at www.plasticpipe.org/building-construction/bc-pipe-calculator.html.

While you are visiting the PPI website, be sure to read about this year's Annual Award Winners. Consider working with your local factory or rep agency on a plastic pipe project you have and consider submitting it for next year's competition.

PPI also announced they are reaching out to PVC manufacturers, and vice-versa, to help find common ground within the plastic pipe industry. This could mean huge changes in the future, all for the good. Keep an eye and ear on these developments.

Plumbing Manufacturer's International (PMI) held their fall conference at the Riverwalk in San Antonio, TX during October too. This is a great networking event with many of the key people within the industry including companies like Kohler, Delta, Symmons, Chase Brass, IAPMO, ICC, Moen; I could go on and on. The important thing is some of the topics and speakers presenting there.

Dr. Marc Edwards from Virginia Tech gave a wonderful, in-depth presentation on Legionella and where our industry needs to be looking, going forward. Dr. Paul Struman from Montana State University followed with his presentation on his work involving Biofilm. Dr. Struman had numerous videos imbedded in his presentation showing the reaction and movement biofilm plays within a piping systems.

Unfortunately, the City of Flint, MI took a bad rap during the entire conference. Yes, Flint has recently been in the national news media for the detection of lead in their municipal water distribution system. This is not acceptable, PERIOD but as industry professionals, we should have never let it get to that point. We will see how the politicians and the water purveyors resolve their differences going forward.

Finally, if you were not aware, October also brought us the IAPMO and ICC code hearings. Safe to say, we do not have many months out of the year with so many important plumbing industry events.

Regards,

You can reach me at:
Dann Holmes – ASPE Region 2 Affiliate Liaison

dholmes@nsf.org or (734) 214-6222

Tech News Now:

Greetings,

I would like to thank Jenn Rook and LiquiTech for coming in last month I wish we would have had a few more Engineers and Designers attend.

Please plan to join us on November 19th when Thomas and Associates along with Acorn Controls will sponsor our meeting on ASSE Standards for Shower and Tempering Valves. ASPE National has even asked for feedback on this presentation for a National Webinar. So please plan to fill out the evaluation form before you leave the meeting.

As always if you might have any suggestions for future meetings please let any of the board members know.

Have a Happy Thanksgiving.

New! ASPE TEXT ALERTS

As part of ASPE's ongoing efforts to streamline member services, members now have the option to receive membership renewal reminders via automated SMS texts. We recognize that our members' time is valuable and that not everyone checks their snail mail and email on a daily basis for the membership renewal invoice, so we are introducing the SMS renewal reminder as a free service.

If you opt-in, two messages will be sent to your cellphone if you have not renewed your membership. The first message will be sent fifteen days prior to your membership expiration date, and the second message will go out on the day of the expiration date. You will be provided with a number to call in your membership renewal payment in addition to a link that will connect you to our online renewal system.

If you would like to participate, please click here: <https://aspe.org/user>. Log in with your username and password, add your cellphone number to your record, and please make sure you click the "opt in" box, which will give ASPE permission to send you renewal reminders via SMS.

If you have any questions, please contact Stacey A. Kidd, Director of Membership & Meetings, at skidd@aspe.org.

Note: SMS text messaging will not take the place of all retention efforts. ASPE members will continue to receive their renewal invoice via mail and email.

October Meeting Preview

Course Description:

ASSE Standards and Applicability to Mixing Valves

Topics of Discussion:

1. ASSE Information: Key Data, Compliance Testing vs. Seal Certification, Compliance Testing Facilities
2. Bather Safety Risks: Definition of Protection/Risk by ASSE, Risks not addressed by ASSE
3. Preventing Scalding: Setpoint Limiting with ONE exception, CW Failure
4. Preventing Thermal Shock: Control Accuracy, Temperature Spikes
5. Preventing Scalding and/or Thermal Shock: Cross Flow, Inlet Temp. Changes, Inlet Press. Changes
6. Product Durability/Reliability: Life Cycle, High Temp., High Press., Functional Press.
7. Prevent Hypothermia/Tissue Damage: Tepid Water, Uninterruptable Supply, Unauthorized Access
8. Top Level View of Safety by Standards

Speaker Bio:

Joseph Penza

Vice-President, Acorn Controls, since January 2011. Developed Acorn Controls, a new line of thermostatic-based shower and tempering valves designed for the highest level of bather safety and performance.

Director of Residential Sales, Watts (2009-2010). Responsible for all Watts products serving the residential market.

Director of Commercial Sales, Watts (2000-2009). Responsible for the Powers and Watts Drainage line.

Regional Manager (1985-1991) and **Industrial Sales Manager, Powers** (1991-1993), a division of Mark Controls.

Summary: A total of twenty-one years (21) experience serving the plumbing specifications market.

Early career experience:

Over twenty (20) years in sales and marketing management positions for manufacturers of automated process controls and computerized material handling systems. Presented at a variety of "Instrument Society of America" events relating to Industrial temperature sensing. Authored articles published in "Instrument and Controls Systems" magazine relating to advanced methods of temperature sensing in harsh and challenging environments.

Indianapolis October 2015 Meeting Photos

November Meeting Preview

Course Description:

Pathogen Control By Design

Topics of Discussion:

The seminar will focus on case studies of Legionella outbreaks and how the implementation of new guidelines and standards (ASHRAE 188P) will impact (from a liability perspective) the design, construction, maintenance, commissioning and operation of commercial plumbing systems in healthcare, medical treatment facilities, hotels, and education facilities. The seminar will also include some great information on incorporating design strategies to minimize the growth of pathogens.

Central Indiana ASPE Board Meeting

October 9, 2015

Attendees: Gary Borgmann, Pete Dervenis, Frank Bruggner, Dan Cummins, Rick Dodd, David Townsend, George Russell
Meeting called to order at 11:40 a.m.

Old Business:

Treasurer's Report:

Pete reported that most of the golf outing invoices had been returned with payments.
Newsletter Business Card ad invoices have been sent out for the upcoming year.

Website update:

David informed that the new website was completed and in the process of launching.

Fort Wayne Membership:

Looking into locations for a luncheon.
Sometime in January, possibly the 28th.

CI-ASPE Promotional Flyers:

New flyers need to be printed for distribution.
Adding achievement banners and updating the pictures.

New business:

V.P. Technical report:

Dan reported that we have all monthly meetings seminars scheduled for 2015/2016. The revised schedule will be published with the next newsletter.

Mini Trade show:

Dan, Frank and Rick are working on setting this up.

ASPE Symposium:

It was decided that CI-ASPE would sponsor one (1) board member's trip and ticket for future symposiums.

The meeting was adjourned at 1:00 p.m.

Respectfully submitted by:
George Russell, CPD
Corresponding Secretary

EVANSVILLE ASPE SATELLITE CHAPTER

BOARD MEETING – Date October 5, 2015

Location Red Fez: Time 11:00
