AMERICAN SOCIETY OF PLUMBING ENGINEERS
A NON-PROFIT ORGANIZATION - Local Chapters
are not authorized to speak for the Society

Gary Borgmann, CPD
President, C.I. Chapter of ASPE

Fall is here and the beginning of the most beautiful time of the year is upon us once again. Fall is one of my favorite times of the year. The colors are just now starting to show and it looks to be as good a year for fall colors as any in the past. One of my favorite things to do this time of year is to go for long motorcycle rides in southern Indiana, or anywhere for that matter! The scenery is spectacular, sometimes glowing, even on an overcast day! Be sure to get out and enjoy it, because what follows is not so enjoyable.

We had a great turnout for our September ASPE meeting with Suzanne Mouser with the Marion County Health Department. I want thank you all for attending. It was very enlightening to hear from the perspective of the inspectors.

By the time you get this, the 2015 ASPE Symposium will have come and gone. If you attended, please drop me a note to let me know what you thought of it. This event keeps growing each year and I imagine it will keep growing with more vendors and more educational programs in the years to come. It would be nice to have it in Indy one day!

We have another great educational luncheon scheduled for the October meeting, so I hope you plan to attend. Details are listed on the schedule of events elsewhere in this issue. Also, be sure to check out our newly updated ASPE website at www.indyaspe.org We still have a few little loose ends to correct, but it is looking great!

Pure Freude an Wasser

Dann Holmes
ASPE Region 2 Affiliate Liaison

Region 2 Affiliate Liaison Report

Are you ready for some...football? Not me, especially with a home team like the Detroit Lions, where we wear brown bags over our heads. Then, how about learning more about plumbing design? Yes, you say! Great, then I will see you at the ASPE Technical Symposium in St. Louis, MO.

Be sure to stop by the NSF International booth during the ASPE Product Show. If we have not met each other already, we will there.

Have you reviewed the technical sessions and planned your schedule? Some on my list include "Proper Use of Cross-Connection Control", the Engineering Ethics Panel. The course on "Truth and Honor, the Relationship between the Manufacturer Rep and the Engineer" should be interesting.

I am very interested in the "Navigating the Product Certification Maze" as well as the "Impact of U.S. Legionella Guidelines on Plumbing System Design" sessions. These, as well as "Differences in Plastic Piping Materials" are near, and dear to my heart.

In addition to spending time in St. Louis for the Technical Symposium, I am honored to speak to the ASPE St. Louis Chapter during their luncheon meeting on October 6. The topic will be on NSF International, Who We Are, and What Do We Do.

I fly home after the St. Louis presentation and turn-around to speak to the W MI ASPE Chapter in Kalamazoo, MI during lunch on the 8th then drive to Grand Rapids for dinner to speak to their members there on Plastic Pipe, Fittings, Applications and more.

Later this month I will be traveling again. The week of October 19 has me in Nashville, TN attending the Plastic Pipe Institute (PPI) Fall Conference. As soon as I return from there, I turn around and head to San Antonio, TX for the PMI (Plumbing Manufacturer International) Fall Conference.

In between all the conferences and technical sessions, I will be attending my local ASPE E MI Chapter and ASSE MI Chapter board meetings and chapter meetings. I trust many of you will be doing the same.

I anticipate writing next months' article of events of this month.

I guess when I really think about it, I am not that disappointed that I will not see the Lions play. I probably could not find the time to watch anyway.

Let us all make learning new design methods to better our profession one of our most important goals this month.

Regards,

You can reach me at:

Tech News Now:

Greetings,

The beginning of the New Year for our Central Indiana Chapter can be fun and hectic time for most. It looks like we got started on the right foot by the number of members we had at the September meeting.

We now have the 2015-2016 lunch topics complete and can be found in this newsletter. Please plan to attend as many as you can we put this together for you.

If any of our members have any suggestions for future meetings please let us know.

Dan Cummins

Indiana Association of Building Officials

2012 InPC Design, Installation and Inspection Principles

A training seminar sponsored by the Indiana Association of Building Officials, Inc. a chapter of the International Code Council, Inc.

Indiana Association of Building Officials will host a seminar on October 15, 2015 to present and discuss 2012 InPC Design, Installation and Inspection Principles. This course will be presented with Indiana amendments and significant differences with the 2005 Indiana Residential Code.

Date: October 15, 2015

- Registration will begin at 8:30 a.m.
- Class will start at 9:00 a.m.
- There will be 1 hour for lunch
- Class will conclude at 4:00 p.m.

Cost:

Member: \$125, this fee will cover instructor and materials

Non-member: \$150, this fee will cover instructor and materials

Lunch is not provided.

Location: Brownsburg Town Hall, Eaton Room, 61 N. Green St., Brownsburg, IN 46112

PAYMENT:

PLEASE DO NOT PAY IN ADVANCE FOR THIS PROGRAM. INVOICES WILL BE SENT OUT AFTER THE PROGRAM.

The Course is worth 6 contact hours/ .6 CEUs.

Class Information:

Participants will be better able to understand and apply the critical concepts required to safely and efficiently design, install and inspect plumbing installations in accordance with the 2006 *International Plumbing Code (IPC)*, with 2012 Indiana amendments. Participants will benefit from understanding the core principles needed to correctly interpret and apply the code.

During this training, participants will be listening to lecture and viewing examples, as well as discussing sections of the IPC that pertain to plumbing system.

Goal: Upon completion of this course, students will be able to provide key information on the Design, Installation and Inspection Principles based on the 2006 *International Plumbing Code (IPC)*, with 2012 amendments.

2012 InPC Design, Installation and Inspection Principles

Objectives: Upon completion of this seminar, participants will be better able to:

1. Identify code enforcement issues and key code sections.
2. Describe the application of the code to inspection, plan review and code enforcement.

Instructor: Gerald C. Flanik, MCP

Gerald C. Flanik is an ICC-Certified Master Code Professional (MCP) holding over 30 various certifications and licenses. He is a LEED BD+C Accredited Professional and Certified Floodplain Manager. Throughout his career, Jerry has been responsible for a diverse array of design build projects.

Mr. Flanik serves as the Chief Building Official for the County of Lake, State of Ohio Building Department and is an adjunct faculty instructor at Lakeland College in the Civil and Electrical Engineering Departments. Gerald holds a Bachelor of Science Degree in Mechanical Engineering, Bachelor of Science Degree in Electrical Engineering from Cleveland State University, as well as a degree in Civil Engineering Technology. Jerry is currently working towards a Masters of Science in Mechanical Engineering at Cleveland State University.

Jerry teaches multi-disciplinary courses for Lakeland College, Ohio Building Officials Association, State of Ohio Board of Building Standards, and the International Code Council. He teaches structural and non-structural IBC, all IRC, IMC, IFGC, IECC, IPC, Accessibility, Green Building, LEED (Leadership in Energy and Environmental Design), and administrative topics.

Please register no later than two weeks prior to class date. Registrations received after Thursday, October 1st will not be guaranteed class materials at the time of class.

Cancellation Policy - **All cancellations must be received in writing no later than October 1, 2015 to avoid penalty.** All late cancellations and no shows will be billed \$50. Faxed cancellations must be verified they were received. It is the responsibility of the registrant to make the verification. Emergencies will be dealt with on an individual basis.

Login Information: If you choose to login into your account, your email address is your username and then click on "Reset Password" to set up your password.

Please register online: [2012 InPC Design, Installation and Inspection Principles](#)

Thank you,
Indiana Association of Building Officials

New! ASPE TEXT ALERTS

As part of ASPE's ongoing efforts to streamline member services, members now have the option to receive membership renewal reminders via automated SMS texts. We recognize that our members' time is valuable and that not everyone checks their snail mail and email on a daily basis for the membership renewal invoice, so we are introducing the SMS renewal reminder as a free service.

If you opt-in, two messages will be sent to your cellphone if you have not renewed your membership. The first message will be sent fifteen days prior to your membership expiration date, and the second message will go out on the day of the expiration date. You will be provided with a number to call in your membership renewal payment in addition to a link that will connect you to our online renewal system.

If you would like to participate, please click here: <https://aspe.org/user>. Log in with your username and password, add your cellphone number to your record, and please make sure you click the "opt in" box, which will give ASPE permission to send you renewal reminders via SMS.

If you have any questions, please contact Stacey A. Kidd, Director of Membership & Meetings, at skidd@aspe.org.

Note: SMS text messaging will not take the place of all retention efforts. ASPE members will continue to receive their renewal invoice via mail and email.

See You There!

September Meeting Preview

Course Description:

Waterborne Bacteria: The Case for Proactive Prevention with Copper Silver Ionization

Topics of Discussion:

1. The Problem of Legionella and an increase in cases
2. Where the pathogen comes from and how/why does it show up in facilities
3. Impact on facilities
4. Remediation strategies
5. Benefits of Copper Silver Ionization
6. Science behind the Technology
7. Case Study
8. ASHRAE 188P

Speaker Bio:

Jennifer Rook

Jennifer Rook graduated from Lewis University (outside of Chicago) with a bachelor's degree in Arts and Sciences. For approximately four years she has been employed with LiquiTech Environmental Solutions focusing on the healthcare arena centered on educating about product need. She is focused on raising awareness of the need for secondary disinfection systems in healthcare, extended senior living, housing, hospitality and property management. In light of what has arisen in those arenas she likes to speak about how Copper Silver Ionization has a positive impact on not only Legionella but also a number of other waterborne pathogens that can contribute to Hospital Acquired Infections as well as a negative impact on hospital readmissions in healthcare and issues with liability.

Her previous employer was Pure Processing who specialized in educating hospitals and surgery centers of the importance of proper pre-cleaning of surgical devices as well as endoscopes. They created a product to help automate a manual process extremely prone to "human error".

Indianapolis September 2015 Meeting Photos

October Meeting Preview

Course Description:

Design and Application of Self-Priming Sump and Sewage Pumps

Topics of Discussion:

1. Typical Commercial Self Priming Pump System (Overview of typical pumping system)
2. Typical Commercial Building (Commercial applications where pumps are used)
3. Types of Sump and Sewage Pumps

Speaker Bio:

Michael E. Tierney

Michael E. Tierney is National Sales Manager for Metropolitan Industries. Tierney joined the National division of Metropolitan in 2003 and is responsible for developing and supporting a network of sales partners throughout the US.

Tierney started his career with Metropolitan in 1985. From 1987 to 1999 he held various positions with increasing responsibility, including manufacturing division production supervisor and control equipment design specialist. In 1999 he assumed local outside sales responsibilities. Tierney has over 24 years of experience in the design, manufacturer and application of custom engineered pumps, controls and packaged solutions for the commercial and municipal markets.

Central Indiana ASPE Board Meeting

September 11, 2015

Attendees: Gary Borgmann, Pete Dervenis, Frank Bruggner, Dan Cummins
Meeting called to order at 11:45 a.m.

Old Business:

Treasurer's Report:

Pete reported that most of the golf outing invoices had been returned with payments.

A discussion ensued on how to handle payments for golf sponsors that had cancelled in advance vs those that did not cancel, or show up. It was decided to refund those that notified us in a timely fashion in order that teams and meal counts could be adjusted.

Newsletter Business Card ad invoices will be sent out for the upcoming year.

Website update:

Prior to meeting, David informed that the new website was completed and in the process of launching. They are working with the previous web host to redirect to new site location.

Membership report:

Prior to meeting, David reported that we have had several past members take advantage of the \$100 renewal program for "past members". David will continue to pursue and promote this program.

We did lose a couple members last month. David will contact to see if we can get them to renew.

Donations:

Gary passed on a letter of appreciation from Gleaner's Food Bank for our previous donation. It was decided that the chapter will again donate to this worthy cause for the 2015/2016 year. Gary suggested donating to the Riley Hospital "Kid's Camp" program as we have done in the past.

New business:

V.P. Technical report:

Dan reported that we have all monthly meetings seminars scheduled for 2015/2016. The revised schedule will be published with the next newsletter.

Dan also suggested bringing back the somewhat annual mini-trade show that we used to hold in October (Oktoberfest). The Evansville chapter has been very successful with their events and this could benefit the local community of designers, students, contractors, and manufacturer's reps. It was decided to discuss further in future meetings.

Gary asked for suggestions on who should be appointed Affiliate Liaison. It was decided that Rick Dodd would be a good fit for this position in addition to his current role as V.P. Education. Gary will see if Rick can add this to his duties. Post meeting note: Rick accepted this new position.

New officer photos were taken for inclusion in the new website, as well as the newsletter.

The meeting was adjourned at 1:50 p.m.

Respectfully submitted by:
Gary Borgmann, CPD
President
