**AMERICAN SOCIETY OF PLUMBING ENGINEERS**  
A NON-PROFIT ORGANIZATION - Local Chapters  
are not authorized to speak for the Society

*Gary Borgmann, CPD  
President, C.I. Chapter of ASPE*

Greetings! This time of year always gets me excited with anticipation of all the fun things going on and things I want to do. The month of May has always been a busy month for ASPE. In years past we would hold our annual golf outing, and we would get a May meeting speaker affiliated with the Indianapolis Motor Speedway, whether it was Donald Davidson or Johnny Rutherford, it was always an exciting month. Even though we've moved the golf outing to August, we still have our somewhat annual May ASPE Appreciation event at the track. We hold these events to give back to our members and supporters and if you would like to join us for a fun afternoon at the track, it's not too late to join our chapter and share in the fun. Even if you're not a racing enthusiast, it's such a big event, especially with this being the 100th running that you should experience it just once!

If you weren't able to attend our April meeting at Delta, you missed a great presentation on the topic of "Innovation". You know, our industry can only grow with new innovations, otherwise it can grow stagnant. It's really cool to see one of our own local businesses making such big advances in their industry. Be sure to thank them, especially Jason Kern and Bob Rodenbeck the next time you see them for hosting our April meeting. They provided a great meal, an entertaining presentation, and a very educational tour through their research and development facility.

This month, we've had a small change; the ever gracious Kevin Squires and Corrosion Technologies will be sponsoring our meeting. The topic is still "Double Containment Piping Systems" and our speaker will be Kevin Squires. This will be our last regular meeting until September, except for our Fort Wayne colleagues. We have been working on providing some educational meetings for them too. While we're talking about Fort Wayne I should let you know that we have set up a luncheon meeting for June 16th at the Parkview Field complex. Rick Swagger and Culligan will sponsor this meeting. The topic will be "Purified Water – Distilled, RO, and Deionized". More information can be found elsewhere in this issue. We're also working on a meeting in September and maybe November too.

Also, a reminder that registration for the 2016 ASPE Convention and Expo is now open. You can find details in the ASPE Pipeline as well as on the ASPE website.

One last item; I'd like to know how many fellow motorcyclist we have out there? Something I've been thinking about is organizing an ASPE fundraiser 'Poker Run' for a yet to be determined worthy cause, Riley or Peyton Manning's Children's Hospital, etc. So, if you could email me and let me know if you might be interested in participating in such an event, I would greatly appreciate it.

I'll see you at the May meeting,

## EVANSVILLE SATELLITE

*Sam Schenk, CPD  
President, Evansville Satellite  
Chapter of ASPE*

Hello Evansville ASPE!

Now that spring is in full swing, we can enjoy warm sunny days and cool evenings outdoors. I hope everyone enjoys the great temperatures before getting into the heat of summer.

Don't forget to mark your calendars for our golf outing on Tuesday, June 21<sup>st</sup>! The Birdie Sponsorship is only \$375 and includes four player fees with hole sponsorship. Hole sponsorships are \$100. If you are interested in sponsorship or have any questions, please contact Steve Sitzman at [Steve.Sitzman@skanska.com](mailto:Steve.Sitzman@skanska.com).

Thank you to Adam Hemminger with Highland Tank, for the presentation on grease abatement options, passive grease interceptor, manual grease interceptors, automatic grease interceptors, sizing and when to use each type. It was a well-attended meeting with a lot of great information.

The May meeting will be held on Thursday, the 26<sup>th</sup> at 11:30 at Red Fez. The presentation will be on digital mixing valves. The presenter will be Todd McCurdy.

## Life Safety Code Requirements

### CMS INFORMATION:

Adopting 2012 Life Safety Code / July 5th 2016

This page provides basic information about Medicare and/or Medicaid provider compliance with National Fire Protection Association (NFPA) 101 Life Safety Code (LSC) requirements and includes links to applicable laws, regulations, and compliance information. Please see LSC Laws, Regulations, and Compliance Information link below in the Downloads section.

The LSC is a set of fire protection requirements designed to provide a reasonable degree of safety from fire. It covers construction, protection, and operational features designed to provide safety from fire, smoke, and panic. The LSC, which is revised periodically, is a publication of NFPA, which was founded in 1896 to promote the science and improve the methods of fire protection.

The basic life safety from fire requirement for facilities participating in the Medicare and Medicaid programs is compliance with the 2000 edition of the NFPA LSC. CMS partners with State Agencies (SA) to assess facilities for compliance with the LSC requirements. SAs may enter into sub agreements or contracts with the State Fire Marshal offices or other State agencies responsible for enforcing State fire code requirements. Under these agreements, the designated State fire authority generally agrees to:

Survey all non-accredited hospitals, hospices, ASCs, SNFs, NFs, CAHs, RNHCIs, PACE Facilities and ICFs/MR in accordance with schedules the SA furnishes;  
Survey accredited hospitals selected for validation surveys or surveyed as a result of a substantial allegation of an unsafe conditions;  
Complete the appropriate Fire Safety Survey Report (Form CMS-2786);  
Prepare statements of deficiencies and review Plans of Correction (Form CMS-2567);  
Make recommendations to the SA regarding facilities' compliance with program fire safety requirements; and

Use only qualified fire safety inspectors in the performance of these surveys.

In most cases, the SA schedules the LSC survey to coincide with the health survey; however, the timing of the LSC is left to the discretion of the SAs. The SA determines whether the LSC survey is to occur before, after, or simultaneously with the health survey. States may also require their own initial survey before permitting facilities to become operational and admit patients.

Facilities conforming to the LSC or with an acceptable Plan of Correction are considered "in compliance."

**Unreasonable Hardship/Waivers** - The LSC provides that the authority having jurisdiction shall determine the adequacy of protection provided for life safety from fire in accordance with the provisions of the LSC. In cases of unreasonable hardship, 42 CFR 483.70(a)(2) specifies that a waiver may be granted where it would not adversely affect resident health and safety.

The Secretary has delegated to CMS the authority to grant waivers of LSC provisions for all facilities participating in Medicare and Medicaid with the exception of ICFs/MR. The SAs may recommend approval of waivers requested by providers, but only CMS Regional Offices (RO) may grant approval of waivers. Therefore, all LSC waiver requests recommended for approval by SAs, except ICF/MRs, must be forwarded to the RO for adjudication. The State has the authority to grant waivers of ICFs/MR requirements. There is no authority for either the State or the RO to grant waivers of Board and Care Occupancy provisions.

**Exemption for State Law** - The LSC is not applicable where CMS finds that a State has in effect a fire and safety code imposed by State law that adequately protects patients in health care facilities, except for small ICFs/MR surveyed under the Residential Board and Care Chapters (Chapters 32 and 33). (See Section 1863 of the Act.)

The State submits a request that State codes be utilized in lieu of the LSC to the CMS/RO. That office will forward the request to the CMS central office (CO) for a determination along with a copy of the enabling legislation so that the CO can determine whether the applicable State law adequately protects patients in healthcare facilities. Upon notification by CO, the RO advises the State authority that submitted the request whether the State code is acceptable in lieu of the LSC. State codes cannot be submitted for ICFs/MR since CMS has no authority to accept them in lieu of the LSC.

**National Fire Protection Association (NFPA)** - The NFPA publishes the Codes and Standards CMS uses in determining compliance with the fire safety requirements of our regulations. The Healthcare Interpretations Task Force (HITF) as a group of technical experts provide interpretive guidance to help answer questions concerning the Life Safety Code to various health care organizations including CMS.

2016 CONVENTION & EXPO

OCT. 28 - NOV. 2 | PHOENIX

Dear ASPE Chapter Leaders,

We are excited to announce that registration for the 2016 ASPE Convention & Exposition will open in May, and to get ready we have developed numerous marketing materials that you can use in your Chapter newsletter, on your website, in social media and emails, and at Chapter events. These materials can be found and downloaded at [events.ntpshow.com/ASPE2016/Public/Content.aspx?ID=9372&sortMenu=103006](http://events.ntpshow.com/ASPE2016/Public/Content.aspx?ID=9372&sortMenu=103006). New materials will be added as they are created, so check the website often for the most updated information. We also will send an email when new materials are available.

Also included on the webpage is a Justification Toolkit that offers helpful tips on how to gain employer buy-in and attend the Convention & Exposition cost-effectively. This toolkit should be shared with all potential attendees to help them explain the professional benefits of attending the ASPE Convention & Exposition to their employer.

If you are planning on transporting local members to the Exposition via bus, ASPE is offering a \$500 stipend to help. The form is located on the same webpage as the marketing materials.

If you have any questions, please contact [gpienta@aspe.org](mailto:gpienta@aspe.org).

We look forward to seeing you in Phoenix!

#### Speaker Bio:

**Kevin Squires**

**President, Corrosion Technologies, Inc.**

Kevin Squires worked as a mechanical engineer for fifteen years prior to starting a career in industrial sales. He worked in distribution sales of chemical and corrosion resistant piping systems / steam specialties, etc. for several years following that time. Kevin's wife Kay and he started Corrosion Technologies, Inc. in late 1999 as a factory representative firm specializing in components and systems to convey and contain corrosive fluids. Corrosion Technologies continues to represent many of the premier manufacturers in this field and have also branched into operation of a fabrication business which serves the contracting & distribution community. CTI has also become a master stocking distributor for some of their product lines.

Kevin & Kay have been married for thirty-six years and have three children and four grandchildren in whom they have great pride & about whom they will be willing to share more information than you would like to know.
