**AMERICAN SOCIETY OF PLUMBING ENGINEERS
A NON-PROFIT ORGANIZATION - Local Chapters
are not authorized to speak for the Society**

Gary Borgmann, CPD
President, C.I. Chapter of ASPE

From the President: Hello again! It's February now which means winter is on the downside into spring! Something to look forward to, don't you think!?! January was pretty mild and even warm for a few days. I noticed that lots of people took the opportunity to go for a motorcycle ride that warm weekend in the middle of the month. Unfortunately, I needed to take advantage of the weather and get some work done outside, so I didn't get my bike out. Now it's back to freezing temps like it should be.

I would like to thank Aspinall Associates and Randy Vogt for sponsoring the January luncheon seminar! Also, a special thanks to James Gibson with Ferguson, Randy Vogt and Joel Everson with Aspinall for stepping in to fill in for Matthew Denny with Aquatherm who was called away unexpectedly. These guys did a great job presenting a very educational program. We had a great turn out too with 31 in attendance! As I looked around I noticed a lot of familiar faces as well as some new ones too. Many were ASPE members, but quite a few were not and I have one question for them, and that is, why not? With all of the benefits of such a great organization like ASPE, such as, the monthly tech sessions, continuing education credits, networking, along with the ASPE Engineering Data books, the monthly Pipeline e-news and the Plumbing Engineer magazine to keep you informed of all the latest trends and code changes, not to mention our own monthly newsletter, it's a great value! Did you know that most of the business card ads in our newsletter include a link to their website which is a great quick reference? So, why not become a member? Food for thought.

For our February monthly meeting we'll have Adam Hemminger with Highland Tank presenting on **Grease Interceptors**. More details are elsewhere in this issue. I saw Adam's presentation at the Fort Wayne meeting and found it to be very enlightening. He will present the same program for the Indy folks. I hope you will take the time to join us on the 16th.

In March, we'll have Mr. Dean Illingworth, State of Indiana Building Law Compliance Officer with the Indiana Department of Homeland Security. As you know, his department is in charge of reviewing building plans, as well as instituting new building codes. If you have any questions you would like to pose to Mr. Illingworth, please send them to me or Dan and we'll compile a list to present to him to address at the meeting. I'm sure most of you have gotten review comments that left you scratching your head wondering what they really want to see. This is a good way to get your questions answered without fear of opening a can of worms! I hope you'll plan to attend.

Also going on this month, is "**Engineer's Week**" from February 19 to the 25th. We will be setting up a booth at Purdue on Wednesday Feb. 22nd and at IUPUI on Thursday Feb. 23rd. There are more details elsewhere in this issue.

As I've mentioned before, ASPE registration is open for the CPD exam on April 6th & 7th. Exam Registration will close on March 24, 2017. Please refer to the ASPE website <https://www.aspe.org/cpd> for more details. And, the ASPE Revit workshop is in March on the 16th. Don't delay to sign up!

Tech News Now:

Greetings,

WOW... What a turnout at the January Lunch & Learn meeting, over 30 engineers and vendors were on hand for a great presentation from Aquatherm on Polypropylene Piping.

Please be sure to thank Randy Vogt and his staff from Ferguson.

Our February 16th meeting will be with Highland Tank, Adam Hemminger will be going over Grease Interceptor sizing, interceptor vs separator, passive grease interceptors and much more.

Reminder that we will have Dean Illingworth from the State of Indiana at our March 16th meeting.

Please plan to attend as many meetings as possible. We can't do these without our Sponsors, Vendors, and Rep's.

Please see the newsletter for a complete list of presenters and sponsors for the 2016-2017 season.

Thank You for your support.

Dan Cummins

Engineer's Week

National Engineer's Week is approaching this month. The dates are February 19th – 25th this year. Our Central Indiana ASPE Chapter is excited for our events scheduled for Engineer's Week this year. We have scheduled to set up our new ASPE promotional booth at both Purdue University in West Lafayette and at IUPUI in Downtown Indianapolis. We will be promoting our ASPE chapter as well as the Plumbing Industry to Engineering students at both campuses. Our goal is to gain as many student members as possible during these two days in hopes to grow interest of our industry to these college students. A goal of ASPE as well as most societies is to target the younger prospective members because we all know that we need to start today to get the industry of tomorrow. Our board has agreed to sponsor any student who signs up as a student member during the Engineer's Week events. I have been busy with scheduling dates and locations at the two schools as well as obtaining promotional item that college students will be interested in. During our visits at each school, myself as well as a couple representatives from our ASPE Chapter Board will be present to discuss with the students the benefits of ASPE, what ASPE is, and information about Plumbing Engineering.

Our Event dates are as follows:

Purdue University School of Mechanical Engineering – Wednesday, February 22, 2017

Time: 10am to 2pm

IUPUI Engineering and Technology Building – Thursday, February 23, 2017

Time: 10am to 2pm

David Townsend, CPD
VP Membership, C.I. Chapter of ASPE

COME AND GET YOUR CAAP!
YOU'RE INVITED TO OUR LUNCH AND LEARN
When: 11:30 AM to 1:00 PM on February 22, 2017
Where: AT OUR NEW FACILITY
9220 CORPORATION DRIVE, INDIANAPOLIS, IN 46256

What is CAAP?

The Culligan Applications Assistance Program, or **CAAP** for short, is a time-tested, invaluable resource offered to Culligan employees and partners that can be used for the following:

- **Sizing** and selecting the correct water-treatment systems based on customer application
- Providing easily editable **Engineering Specifications** for Architects/Engineering Firms and Contractors to design Culligan equipment with specific features and functionality into future projects
- Providing the latest **marketing collateral**, **design data** and **engineering drawings** for selected products

What new features are available with WebCAAP?

CAAP has been upgraded from PC-based software (PC CAAP) to a web-based program operating on the cloud (WebCAAP.) Here are a few new features and benefits of the WebCAAP program:

- **Access to Sizing Software and Project Data**
WebCAAP provides access to the sizing software and your project and customer data from anywhere you can connect to the internet. The program is optimized for Windows, Macs, iPads, and Android tablets.
- **No downloading Files or installing updates**
WebCAAP provides you with the latest equipment and marketing material.
- **Integrated Treatment Train with Culligan Products**
User will only need to provide inputs and preferred outputs and the software will recommend the components of the treatment train required to achieve your target quality and quantity of water.
- **Download Your Customer's Water Analysis Information Directly into Their Water Treatment Project**
You simply enter the number of your analysis report into the treatment project and WebCAAP will automatically download your customer's water analysis information directly from Culligan's Laboratory database. We also provide pre-populated water analysis data from cities and regions across the US to use as examples for your customers.
- **Configurable Room Layout Tool**
This can demonstrate how equipment will fit in customer's building.

PLANT TOURS WILL BE AVAILABLE TO ALL
RSVP by Monday February 20 with contact information

You can contact us below

Revit 2017 MEP Systems Full-day Workshops HVAC, Plumbing & Piping

January 24 - Oklahoma City, OK | **February 9** - Salt Lake City, UT
February 16 - Toronto, ON | **February 24** - Baltimore, MD | **March 9** - Indianapolis, IN
March 16 - New York City, NY | **March 30** - Seattle, WA

Start your year off right with these seven one-day intensive special workshops where you will get the whole day to be hands-on with Revit 2017 MEP taught by IMAGINiT Technologies.

This class is designed for mechanical / plumbing designers to help you get your Revit 2017 projects to the next level. If you want to know how to get the project started and understand how to maximize your workflow, this is the class for you. We will discuss how to get started properly to optimize your project workflow. You will be able to utilize Revit MEP to design a functional and graphically pleasing plumbing system.

Prerequisites:

Basic knowledge of Windows operating system and computer keyboard / mouse skills, Revit MEP fundamentals, and MEP design concepts.

Fees*

The registration fee* includes computer rental pre-loaded with Revit 2017.

- Early-bird ASPE Members \$375 (\$425 after)
- Early-bird Nonmembers \$575 (\$625 after)

Early-bird Nonmembers with 1 Year ASPE membership \$475 (\$525 after)** [Click here](#) to begin this registration process.

*First three workshops of 2017 early bird rate through 12/15/16 (Oklahoma City, Salt Lake City, and Toronto). Prices increase \$50 starting 12/16/16.

*Last four workshops of 2017 early bird rate through 1/15/17 (Baltimore, Indianapolis, New York City, and Seattle). Prices increase \$50 starting 1/16/17.

REGISTER EARLY!

**A one-year ASPE membership is \$190 for full members and is included with registration fee. Don't pass up this opportunity!

Important Notes:

- Limited to 8 people per day!
- CEUs: Earn 0.75 CEUs or 7.5 PDHs for attending
- **Onsite registration begins at 7:30 a.m. and starts promptly at 8:00 a.m. Arrive early!**

Questions? Contact ASPE Education at 224-217-9016 or education@aspe.org.

Grease Interception

Course Outline:

- Sizing & Codes
- Interceptor vs Separator
- Types of Passive Grease Interceptors
Applications
- Interceptors in Series
- Types of Manual Grease Interceptors
Applications
- Types of Automatic Grease Interceptors
Applications

Speaker Bio:

Adam Hemminger

Sales Specialist-Grease Interceptor Division

Highland Tank & Manufacturing

Adam is a Sales Specialist for Highland Tank & Manufacturing's Grease Interceptor Division. Highland Tank manufactures Storage Tanks, Oil Water Separators, Water Tanks/Systems, and Passive/Hydro mechanical Grease Interceptors. Prior to becoming a Sales Specialist, Adam was an estimator for Highland Tank quoting their products to contractors, distributors, and customer. He has been a member of ASPE for two years now mostly attending meetings in Pittsburgh and Johnstown, Pennsylvania. Adam spends his time working on specifications with plumbing and mechanical engineers mainly in PA, OH, IN, WV, and KY.

February Lunch-N-Learn Preview

Grease Management

Presentation Overview:

Total System Grease Management offers a review of the design, installation and maintenance of grease systems. Plumbing Codes & Regulatory Trends and how they affect pre-treatment and other environment concerns as well as the causes of SSO & CSO are discussed. The different types of interceptors and their features, functions & benefits along with the sizing for both grease and oil/water separators are reviewed.

Speaker Bio:

Vince Scriboni

For over 40 years, Vince Scriboni has worked at all levels in the plumbing industry: installing and designing plumbing & piping systems, manufacturer's representative, wholesale distribution sales, and sales management with major manufacturers. Vince is currently the Territory Manager for Zurn/Green Turtle.

An active member of ASPE since 1989, Vince has presented technical seminars at ASPE conventions and symposiums and has been the featured speaker at many ASPE meetings throughout Canada and the USA. He was a member of the ASPE Section 15 Hot Water Temperature and Control Committee and currently sits on the ASPE Long Range Planning Committee. Since 2012, he has held the position of Vice President, Affiliate on the ASPE Board of Directors. His duties include chairman of the Affiliate Advisory Committee, which assists in the planning of the ASPE Convention and Exposition, and communicating affiliate views on technical issues to ASPE.

Central Indiana ASPE Board Meeting
January 13, 2017
Meeting started at 11:45

Old Business

Treasure report, holding steady, dues rebates from national are coming in.

All outstanding debts have been paid for the 2016 golf outing. Largest event to date.

2017 business cards have been updated in the newsletter.

Engineer week is scheduled for February 19th -25th 2017, David and Frank to take the lead on this, we have new C.I. ASPE banners and they will be on display at the Purdue and IUPUI table top meetings that week to encourage students to get involved. Promotion items will be ordered and handed out at the gatherings. Would need to start a mentoring program.

Membership holding steady, 98 members for Central Indiana, 25 members for Evansville.

Reviewed requirements for the chapter Award of Merit. Items required are under consideration.

David Townsend is working to update our web site (tutorial)

New Business

Board member appreciation dinner scheduled for February.

Looking into C.I. ASPE member appreciation night at the Indianapolis Indians ballpark.

Ft. Wayne meetings going well, looking at holding 1 meeting every 2 months, we have had a few people from Ft. Wayne step up to help facilitate with these meetings.

Looking for candidates to run in the May elections for C.I. ASPE board seats, an email blast will be sent to seek interest.

MEETING ADJOURNED 1:10PM

Respectfully submitted by:

Dan Cummins
VP Technical

EVANSVILLE SATELLITE

EVANSVILLE ASPE SATELLITE CHAPTER

BOARD MEETING – Date January 5, 2017

Location Red Fez

Time 11:00

President - Schenk

Treasurer

Jacob Evans (Ferguson) got a unanimous vote for the new Treasurer of the Evansville Satellite Chapter.

Trade Show

Dates suggested by the hall are March 13-16 or April 10-13

ASPE BOD prefers the dates between April 10-13 and will inquire about availability.

Vice President Technical – Farmer

Greg to contact this months speaker for brief career biography

Treasurer - Evans

Treasurers report

Money is good

All outstanding bill have been paid

Transfer of treasurer access and responsibilities from Brian Lowe to Jacob Evans are in motion.

Secretary – Steve Sitzman

Golf scramble scheduled for June 20th at Cambridge

Jacob has some big shoes to fill here.

Does anyone plan to or want to relinquish their role on the Evansville BOD?

If so, what positions?

Who are the potential candidates?

Voting coming in June.

Board expressed interest in getting a contractor on the board to garner more interest from that field in the monthly meetings.

How can we get new faces to the monthly meetings?

Scrap the monthly gift card drawing.

Considering 1 large drawing with a minimum meeting requirement.

Must attend 4 out of 6 meetings to qualify.

Additional credit for making all 6 meetings.

9. Next General Meeting – 1/26/17

10. Next Board Meeting – 2/2/17
