Gary Borgmann, CPD
President, C.I. Chapter of ASPE

From the President:

Another winter month gone! Yay! We've had some really wacky weather... Hard to believe it can go from 0° to the 50's in a day or two! That's Indiana for you! Although, we took a Florida vacation last week and the weather wasn't much warmer there. I took too many shorts and Tee shirts and not enough long pants and sweatshirts.

I'm sorry I missed the last meeting! From what I heard, it was a pretty good tech session! Thanks to Colby McCorkel and Moen for sponsoring the luncheon! The topic of water efficiency is not going away, and in fact it will only become more important. Thank you all for taking the time to attend! We also had a good turnout for our Fort Wayne meeting! Thank you Pat McQuillan and New Age Castings for sponsoring our January tech session!

Our February meeting in Indy is coming up on the 15th and we will have Jack Wintrow educating us on how to save a buck when it comes to designing a water softening system. Jack has been in the water treatment industry for 26 years and quite a few of those years with Culligan. You will find more info on this month's luncheon elsewhere in this issue. In the past, Jack and Larry have tag teamed to give us some very educational technical programs and I'm sure this one will not disappoint. However, Larry Goetz has moved on and if you haven't heard, he is now with Aqua Systems. We wish the best for Larry on his new adventure!

We don't have a Fort Wayne meeting this month, but stay tuned for next month's invitation. You can see what's coming up on our calendar of events elsewhere in this newsletter.

See you at the next meeting,

Gary Borgmann, CPD

Indianapolis January Lunch-N-Learn Preview How to Value Engineer Softening Systems

Course Outline:

- Softening basics and the impact on value
- Fiberglass vs Steel Tanks
- ASME code
- Unassembled vs skid mounted
- Efficiencies in salt and reclaim
- Multi-tank systems and flow parameters

Speaker Bio:

Jack Wintrow

Jack has spent the last 26 years in the water treatment and plumbing business and is currently a commercial and industrial water treatment sales specialist with Culligan of Indianapolis. His primary duties consist of design, implementation, sales, and service of commercial and industrial water treatment systems. Jack specializes in water softening, filtration, reverse osmosis, deionization, ultra-filtration, ozonation, instrumentation, resins, salt, bottled water, and U.V. Jack's primary areas of coverage are Indianapolis, Lafayette, and Bloomington.

Aqua Systems is pleased to present Larry Goetz, as new member of the Sales team in the Commercial/Industrial division. Larry's background and experience is precisely what we look for in this position. Starting a local family owned dealership he wore many hats including service, management and everything in between. The close relationship between Larry and the industry has allowed him to hone his skills to meet customer requirements, there

needs and how best to treat the various local waters in central Indiana. Larry, has spent over 25 years in the commercial water treatment business, having worked in sales for both local and national divisions of Culligan International. At one point, he was also a Culligan service tech in Commercial/Industrial, so he has the hands on experience in the field as well. Though many uses of water are similar each of us have our own needs and specific parameters. Larry's experience in dealing with these brings a broad basis of knowledge to support Engineering Firms, Mechanical Contractors and End Use customers.

Please join us in a big welcome to Larry as we wish him much success in his new future with our Commercial Industrial sales team.
