**AMERICAN SOCIETY OF PLUMBING ENGINEERS
A NON-PROFIT ORGANIZATION - Local Chapters
are not authorized to speak for the Society**

David Townsend, CPD
President, C.I. Chapter of ASPE

From the President:

Happy August to you all. Summer is coming to a close and schools are gearing back up for the year, if yours hasn't already started which means that our local ASPE Chapter will soon be back into our monthly meeting schedule. September 19th will be the date of our first meeting back for the season. Make plans to attend and you'll be able to find information about the upcoming meeting later in this newsletter issue. We are currently scheduling our 2019 -2020 chapter meetings. If you have any topics that you are interested in or know of a presentation that would be beneficial to our chapter, feel free to send that to Bryan Lee or any of the chapter board members. We are always up for new topics and presentations. I hope everyone had a great time at the Annual Golf Outing this year. Congratulations to the winners and to our "Hole In One" winner Jim Lyons. Give us some feedback and let us know how the change of course was or any other pros or cons of the outing. In addition, I would like to thank all the generous sponsors that made the golf outing possible. We appreciate your support of our chapter. Further in this issue you will see an overview of the golf outing and the results of the winners and not so winners. As stated last month we are getting close to our Chapter Anniversary event. Central Indiana ASPE will hold its 45th anniversary in the fall. This event will be for members and spouse/guest so be on the lookout for more information coming soon. Enjoy your remaining summer and soak in some of the sunshine and warm weather.

David Townsend, CPD

ASPE Region 2 Affiliate Liaison

Before I begin, I must first apologize for something I wrote in my last article. I wrote a sentence stating “Our profession has a motto; Prevention Rather Than Cure”. Although this is true, I was taken to task by one of our loyal readers of our Region 2 newsletters pointing out that is an ASSE motto and has nothing to do with the Healthcare Infection Transmission Systems (HITS) conference which was the subject of my article. For this, please accept my apology.

ASPE Panel of Experts

You need to REGISTER NOW for the **Legionella Conference 2019 – Building Water Systems: The Sustainability & Public Health Nexus** held September 11-13 at the Westin Bonaventure Hotel & Suites in Los Angeles, CA.

The *Legionella* Conference, hosted by NSF International and the National Environmental Health Association (NEHA), is a unique, annual event that focuses on emerging issues related to building water systems – and brings professionals together to work toward solutions.

The 2019 *Legionella* Conference theme, “Building Water Systems: The Sustainability and Public Health Nexus”, centers on how both industries can help align water and energy sustainability and public health goals. This event will bring together thought leaders from across the sustainability, public health, water management, water utility and academic communities. Working in collaboration with diverse stakeholders, including an **ASPE Panel of Experts**, we can develop systems to prevent illness associated with building water systems while meeting our sustainability goals.

The keynote speaker will be Pat Breysse, Ph.D., Director, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry (NCEH/ATSDR) of the Centers for Disease Control and Prevention (CDC). Under Dr. Breysse’s leadership, the CDC has prioritized work on exposure to lead and safe drinking water, initiated new actions to address exposure to hazardous chemicals and has played a critical role in the CDC’s emergency preparedness and response to natural disasters and chemical exposures.

Why Should You Attend?

ASPE will be well represented by our President **Carol Johnson, CPD, CFI, FASPE**; AYP Liaison **Christoph Lohr, PE., CPD**; Region 2 Director **Keith Bush, CPD, CSI, GPD**; Past President **J. Joe Scott, CPD, FASPE**; and **Peter Kraut, PE.**, president at South Coast Engineering Group (SCEG). The panel will address the model plumbing codes and how they either help, or hinder plumbing engineering goals to meet sustainability demands, code requirements while minimizing hazardous conditions that have the potential to cause harm to humans. What language can ASPE submit to the code bodies for future debate?

Christoph Lohr PE, CPD, will give an individual presentation on the topic of “**Plumbing Engineering and Legionella: Where are the Gaps?**” Other important topics include: Creating a successful water management program; Advancing water reuse opportunities; Monitoring a successful water management program; Intersection of sustainability and public health for cooling towers; Water conservation goals and public health – responding to unintended consequences; Strategies for benchmarking building water systems for sustainability and public health outcomes; Legionella outbreak surveillance and response strategies – identifying best practices; Domestic hot water systems – safely and efficiently managing water temperatures; and plumbing design.

This conference will provide access to cutting-edge research, practical problem-solving, and the regulatory strategies employed by cities, states, and federal agencies grappling with how to meet their sustainability and public health goals. LC2019 will also have a series of learning objectives that you can choose from based on what interests you most.

Who Should Attend?

The obvious answer is YOU, but I want you to consider inviting your healthcare clients including facilities managers and their health care infection control personnel. Environmental consultants, sustainability directors, certified hygienists, public health officials and professionals interested in building water health will also be attending. Lessons learned at this conference will be a perfect segue into the ASPE Technical Symposium program tracks in Pittsburgh.

One Last Thing

Since you’ve taken the time to read this article and you’re interested in attending, please use code **ASPE** to receive a 20% discount on your registration fee. Please visit legionellaconference.org to register and review the global list of speakers and their subject expertise.

Viega MegaPress® Stainless
 Original innovation — new choices

viega.us/mpstainless

Advantages of MegaPress Stainless for IPS

- Approved for use with Schedule 10 and Schedule 40 pipe
- Viega Smart Connect® feature makes unpressed fittings easy to detect during pressure testing
- No risk of fire or smoke and no cool-down required, so fire watches or hot work permits are not needed
- ASME approvals: B31.1, B31.3, B31.9
- Fitting sizes ranging ½" to 2"

Viega. Connected in quality.
