**AMERICAN SOCIETY OF PLUMBING ENGINEERS  
A NON-PROFIT ORGANIZATION - Local Chapters  
are not authorized to speak for the Society**

**David Townsend, CPD**  
**President, C.I. Chapter of ASPE**

**From the President:**

Welcome April. This is the time of year I start looking forward to. The weather finally turns warm and outside activities start to ramp up. This year is a bit different with the COVID-19 pandemic breaking out all over the place. Our dining rooms, Dens and such have become our daily workplace for those able to work remotely. Dining out has been replaced with doorstep delivery and finding toilet paper has become a not so fun scavenger hunt. Indiana has seen an increase of positive tests for the virus and “Stay-at-Home” orders are being extended through April.

For our local ASPE chapter, we will be doing things a little different this month. We will not be holding our meeting at our normal K of C location. We are working right now to provide an alternative meeting online or at least a conference call. We will be sending out an email notification on this as soon as we get things finalized.

Also you may have heard that the Month of May at the Indianapolis Motor Speedway has moved to August. This will affect our May Appreciation Day at IMS which was scheduled for May 15<sup>th</sup>. We are currently working on changing the event and we will notify you via emails and newsletters of any information regarding the Track Event change. As a reminder the Golf Outing will be held on Friday August 7<sup>th</sup> this year as well.

As of right now the ASPE Convention is still happening and hopefully all this pandemic will be far gone by then. The 2020 ASPE Convention and Expo coming up in September. ASPE is currently looking for speakers for the tech sessions as well as exhibitors for the Expo. The ASPE Convention will be held in New Orleans, LA on September 11<sup>th</sup>-16<sup>th</sup>, 2020. Registration for the Convention opens this month.

Until next month,

David Townsend, CPD  
President – Central Indiana Chapter, ASPE

## Tech News Now:

Greetings,

Our ASPE chapter hopes to find our members and their families safe and healthy during this unprecedented time. We certainly miss having our monthly meetings and seeing you there.

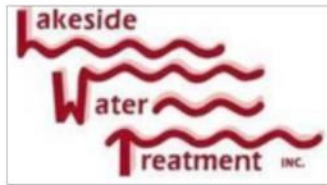

As you know, we had to unfortunately cancel our March meeting. We thank Michael Henderson of P.M. Associates and Jon Drobac of Zurn for offering to sponsor the luncheon. We look forward to having their presentation on “Linear Trench Drain Design” at a future meeting.

Our April meeting will be held as a webinar meeting so you can still earn education units. We will send out meeting details and an invitation to the web meeting. It will still be on April 16<sup>th</sup> at 12:00 pm – 1:00pm. Bob Taylor of McWane Plumbing Group has agreed to host the meeting remotely. The topic is “Cast Iron Use and Regulations.” Bob is always a great supporter of our local ASPE Chapter. We look forward to his online presentation.

Although we cannot meet in person, we look forward to seeing you on the webinar meeting. We will get through this and have our regular meetings as soon as we can.

**Bryan Lee**

**Coulda, Woulda, Shoulda**

The human brain is amazing. It is always looking to find ways to rationalize the actions we take every minute of our day. This may lead to dreams we're left trying to make sense of, or guilt we feel for things that have happened around us but are completely out of our control. Our brains need order. Nice, clean and neat order supported by reason.

Many of us are asking how did we get ourselves into this global COVID-19 pandemic? What affect will this invisible coronavirus have on me, my family, my workplace, my job, my friends, my investments, and the neighbors down the street that I hardly know.

Scientifically, there is so much that is unknown about this coronavirus that we find it difficult to process the complexity of this outbreak. It seems to have come out of nowhere. It is surreal, and our minds need clarity.

Using social media sites like Facebook as your source for reliable medical information only makes things worse. Have you noticed that suddenly everyone you know on FB, knows everything there is to know about the COVID-19 coronavirus including what temperature the hot water in a building should be to kill it! Really? Based on what science? Was a research study conducted, peer-reviewed and referenced? Heck no, it is what they believe to be so, so it must be.

To help further, people begin to look for political reasons for the outbreak. Will the Republican or Democratic party be able to claim victory over this 21<sup>st</sup> century plague? Don't let the fact that this coronavirus was first traced to Wuhan, the capital city of Hubei Province in the People's Republic of China, a communist country. Nah, let's capitalize on this crisis for political gain. I'd like to remind everyone, the coronavirus doesn't care what political party you prefer, what religion you practice, the color of your hair or what your height and/or weight is. It will do its best to find a home in you to multiply and if need be, kill you and anyone you encounter.

Everyone that takes the time to read this article has already had to make drastic changes to their daily routines. Schools are closed, states are implementing stay-at-home, or shelter-in-place orders. All meetings, conferences and expos planned over the next few months have been cancelled. As a society, we are transitioning. To what? It is too early to tell but these lessons learned now will stay with our children for many, many years to come.

Are we taking the necessary steps to "flatten the coronavirus curve"? Yes, most of us are. At least we hope we're doing the right things by following the daily guidance given by the experts. Experts that want validation testing and testing data. Not by listening to the journalist that interpret what the experts are saying and writing pieces designed to "click-bait" to their website. Fearmongering.

The last thought I'd like to leave you with is the unintended consequences of fighting COVID-19; Stagnant Water. We have left hundreds of thousands of buildings and manufacturing plants around the world vacant. The microbes in water are like the coronavirus, they don't care who, or what you are. They will do what they need to do to survive. So, when you return to your workplace, be sure that you do not make a cup of coffee, drink from a faucet, take a shower, start-up your cooling tower, etc. until a full coordinated flushing of the facility takes place.

We don't need our brains keeping us up at night telling us we coulda, woulda, shoulda controlled the water in our building when we can plan for what we need to do now.

Stay safe, stay healthy and look after your loved ones.

Dann Holmes – ASPE Region 2 Affiliate Liaison

# INDIANA CODE EDUCATION CONFERENCE 2020

“The Future of Our Industry”

Tuesday, May 5

1:00 – 5:00 PM

Indianapolis Marriott East

- Free Lunch, Grand Prize & More -

**Exhibitor Day  
2020**

**You do not want to miss this!**

**Lunch FREE from noon - 1:00**

**EVERYONE** in the building industry is encouraged to join us for our 2020 Exhibitor Day. All building industry professionals: builders, contractors, suppliers, designers, sub-contractors representing plumbing, heating & cooling, framers, electricians, insulators, and more are encouraged to attend. We urge you to invite your clients and suppliers. **Lunch is from noon - 1:00!**

If your schedule allows, join us for the entire conference Monday, May 4th through Wednesday, May 6th. We have a special guest, **Matt Paxton**, joining us on Wednesday. Matt is one of the top hoarding experts in the country. He is also the host of the new show, *Legacy List* on PBS and former host of A&E's hit television show, *Hoarders*. Learn more online at [www.iabo.com/ICEC2020](http://www.iabo.com/ICEC2020).

# CI-ASPE's AYP/WOA Event

Indiana State Department of Health  
Consumer Services and Health Care Regulation Commission  
Division of Acute and Continuing Care

**COVID-19 NATIONAL/STATE EMERGENCY HOSPITAL BLANKET WAIVER:  
CONVERSION OF STANDARD PATIENT ROOMS TO NEGATIVE PRESSURE  
ISOLATION ROOMS (REVISED)**

ISDH CSHCR: Program Advisory Letter

Number: **AC-2020-01-HOSP**

Effective Date: RETROACTIVE TO March 6, 2020

Created: March 21, 2020

Cancels: None

Reviewed: n/a

Revised: March 22, 2020

**BLANKET WAIVER SUMMARY**

- ***Retroactive to March 6, 2020***
- ***A blanket waiver from state rules and FGI Guidelines regarding the requirements for isolation rooms. Facilities and design firms will not be required to submit waiver requests or plan designs for converting non-isolation rooms to isolation rooms during the declared National and State COVID-19 Emergency. The ISDH hereby issues a blanket waiver applicable to all hospitals subject to the requirements of this notice.***

**Background:**

Due to the anticipated magnitude of patients presenting to hospitals due to concerns related to the COVID-19 viral infection, hospitals may have a need to add additional negative pressure isolation rooms in order to protect patients and staff within the facility as patients with suspected or confirmed cases of COVID-19 undergo medical management and treatment.

**Policy:**

1. Isolation (negative air pressure) room requirements per FGI, 2018 Edition are hereby suspended.
2. Facilities will not be required to submit waiver requests or plan review documents for the modification of currently approved inpatient rooms.

**Indiana State Department of Health  
Consumer Services and Health Care Regulation Commission  
Division of Acute and Continuing Care**

3. A negative air pressure room shall meet or exceed -2.5 (negative 2.5) pascals or -0.01 inches water column.
4. All air from a room converted to a negative pressure room shall be:
  - a. Exhausted externally from the building or;
  - b. All exhaust shall be routed through a HEPA (99.97% efficient) filter and only returned back to isolation rooms.
5. Externally exhausted air shall be exhausted 25 (twenty-five) feet or greater from any other air intake.
6. Policies and procedures are required for the disposal of human waste in any room converted to negative pressure that does not have an in-room toilet/bathroom.
7. Any room or area other than a toilet/bathroom servicing the negative pressure room shall be positive to the negative pressure room.
8. A visual pressure monitoring mechanism must be present which indicates the air pressure status of the room at all times in which a patient is present in the negative pressure room.
9. The facility shall implement some type of monitoring system/device/process to ensure the negative pressure room remains continuously negative during the patient's length of stay in the negative pressure room.
10. All surfaces within the negative pressure room shall be or made to be easily cleanable and able to be properly disinfected.
11. Each facility that converts rooms under this waiver, or that converted rooms to negative pressure rooms after the effective date but before the issuance of this waiver, must immediately (i) report all completed room conversions to ISDH and (ii) request an inspection so the ISDH can verify the converted rooms meet all requirements set out in this waiver.
  - a. The notice and request must be emailed to ISDH at the address provided below, and must attest that the facility is currently in compliance with items 1 thru 10 above.
  - b. Each inspection under this paragraph will be scheduled as soon as practicable under the circumstances, but no later than sixty (60) days after the inspection request is delivered unless such period is extended by ISDH upon request and showing of genuine need.
  - c. Once a facility has delivered the notice and inspection request required by this paragraph, the facility may immediately begin or continue using the converted rooms, subject to later inspection and implementation of changes (if any) then directed by the ISDH.

**Indiana State Department of Health  
Consumer Services and Health Care Regulation Commission  
Division of Acute and Continuing Care**

12. This emergency waiver is time limited to the duration of the COVID-19 public health emergency. If a facility wishes to make the negative pressure rooms permanent, the room(s) must be submitted for plan review and designed to the FGI 2018 Edition requirements for negative pressure rooms.

**Questions:**

Questions about this program advisory letter may be addressed to Todd Hite, Program Director, Health Care Engineering (317) 233-7166, email: [thite@isdh.in.gov](mailto:thite@isdh.in.gov) or Jennifer Hembree, Hospital Program Director, email: [jhembree@isdh.in.gov](mailto:jhembree@isdh.in.gov).

### Cast Iron Use and Regulations

#### Speaker Bio:

Denis Hache

Product Manager: Laboratories and Non-Medical Applications  
BeaconMedaes

Bob Taylor has been involved with the plumbing industry since 1991 as a distributor, product representative and technical services for manufacturing direct. Focused on the cast iron DWV system over the past 11 years, he is also on the ASTM A04 and E05 committee's and currently works as a technical services manager for both Tyler and AB&I iron foundries.

Today, he enjoys spending time with his family and fishing when he can. He also enjoys sharing what he's learned over his career with others and appreciates the opportunity to meet new and exciting people all over the country. ASPE has been a great engine for his personal and professional growth.

“Simplicity is the  
ultimate sophistication.”

- Approved for use with Schedule 10 and Schedule 40 pipe
- Viega Smart Connect® feature makes unpressed fittings easy to detect during pressure testing
- No risk of fire or smoke and no cool-down required, so fire watches or hot work permits are not needed
- ASME approvals: B31.1, B31.3, B31.9
- Fitting sizes ranging 1/2" to 2"

# HELP WANTED !!

DEEM, LLC is a commercial contractor and service company offering HVAC, Plumbing, Electrical, Refrigeration, Industrial Piping, Building Automation and Sheet Metal Installation and Services.

DEEM is currently looking for a BIM Coordinator to perform a wide variety of drafting duties that utilize Autodesk Revit in developing design, penetration, shop, coordination and production drawings at our corporate headquarters in Indianapolis, Indiana.

The candidate will prepare preliminary and final coordination models and drawings of projects, determine feasibility, production, applications, and generate accurate detailed shop and record drawing data.

See the ad posting here <https://careers-deemfirst.icims.com/jobs/1301/bim-coordinator/job>

Contact David Townsend @ 317.775.3950 or [DTownsend@deemfirst.com](mailto:DTownsend@deemfirst.com) for more information!
