**David Townsend, CPD**  
**President, C.I. Chapter of ASPE**

**From the President:**

Happy New Year to all. January is here, and with that we will have our chapter meeting this month on January 16<sup>th</sup>. Fort Wayne will also have their meeting this month on January 9<sup>th</sup>. Please make plans to attend one of these meeting dates. For the Indianapolis meetings, I believe we have all meetings set through summer break. If you have a topic or are interested in sponsoring a meeting, we are working on scheduling the fall 2020 meeting session. With 2020 being here it's time to start looking ahead for the 2020 ASPE Convention and Expo coming up in September. ASPE is currently looking for speakers for the tech sessions as well as exhibitors for the Expo. The ASPE Convention is in New Orleans, LA. Save the date September 11<sup>th</sup>-16<sup>th</sup>, 2020 for attending the Convention and EPE. Keep an eye on emails and pipeline articles from ASPE regarding the Convention for registration dates, lodging, etc. Also see the website and the ASPE Pipeline for information on more events happening around the Country for ASPE.

On the ASPE local end, we have been planning our annual membership appreciation events. You will start to see information on these events and more in the upcoming months. Don't forget that the ASPE Chapter golf outing will be in early August.

Have you had the chance to check out ASPE's new website yet? I have been on the site a few times, and to me, the site seems very user friendly and easier to find the information that I was looking for.

The ASPE Alfred Steele Scholarship deadline is quickly approaching. All applicants that are qualified should submit their scholarship application by January 31<sup>st</sup>, 2020. ASPE awards up to \$3,000 to applicants interested in the plumbing industry.

Until next month,

**David Townsend, CPD**

## Tech News Now:

Happy New Year!

As we move into the second half of our ASPE season, I am pleased to announce that we have our seminar schedule filled with great speakers. There will be very insightful information for you to apply to your projects. Please view the list of seminar speakers and topics listed in our newsletter.

We want to thank Julia Mauck of NIBCO for her presentation on Copper Press Systems at our last meeting and for her support of ASPE.

Our January 16th presentation is sponsored by MMI and Bradford White Water Heaters. Gregg Holladay from Bradford White will speak to us on "Heat Pump Water Heaters: How They Operate and Negative Myths to Overcome." Gregg has over 30 years of experience with heat pump water heating systems. Gregg's bio can be read below. I am sure that you will find the information he has to share with us will be valuable.

Please invite others to join our group at this month's meeting. You can bring a colleague that has not been to a meeting for a while or someone new to the industry that would benefit from being a part of our ASPE Chapter. We look forward to seeing you there.

Thank you all for your support!

## Heat Pump Water Heaters: How they Operate and Negative Myths to Overcome

### Speaker Bio:

Gregg Holladay  
Business Development Manager—Specialty Markets  
Bradford White Water Heaters

Gregg Holladay is a Business Development Manager – Specialty Markets for Bradford White Water Heaters. In his role, Gregg works to educate architects, builders, and the plumbing/HVAC trade on the benefits of heat pump water heaters, including Bradford White's own [AeroTherm™](#).

Before joining the Bradford White team, Gregg spent 32 years with General Electric (GE) where he introduced GeoSpring™, the first Energy Star electric heat pump water heater, to the US market. With GE's exit from the heat pump water heater market, their manufacturing assets were acquired by Bradford White and integrated into their own state-of-the-art manufacturing facility in Middleville, MI. Now, Bradford White's engineers and manufacturing experts use these assets to produce the next generation AeroTherm, the only heat pump water heater with top connections to facilitate easy installation.

Gregg lives on his Kentucky farm with Teresa, his wife of 37 years. He holds a Bachelor of Arts degree in Psychology from Bellarmine University in Louisville, KY.
