are not authorized to speak for the Society

***David Townsend, CPD  
President, C.I. Chapter of ASPE***

**From the President:**

Happy February to you all! First off, a big Thank You to Tom Halley with Sencillo Systems for his online presentation to us last month. Also thank you to Michael Henderson with P-M Associates for sponsoring the online meeting. We had a great turnout online with attendees that have never been on with us. The meeting went well and was very informative. How do you feel about the registering process and the use of our own chapter ZOOM? We will have our next online chapter meeting via Zoom on February 18th. The registration info for this meeting will be in this newsletter and sent to the membership via email as well.

The deadline to apply for the Alfred Steele Scholarship through ASPE was January 31st. I hope you got your applications in if you were trying for this scholarship. The January 31st date was also the closing deadline of the 2020 ASPE Digital Conference. The Digital Conference was a great way to obtain CEU's. I took part in most of the sessions and browsed around the digital expo as well. Thank you to ASPE for offering this option to us since the 2020 Convention was cancelled.

As for the remainder of our 2021 meeting season, we will continue using the Zoom online meeting format. We are hoping that for the Fall 2021 season, we can return to in-person meetings. We are monitoring the regulations and info we receive and will make that determination in the future. We are still looking for some meeting sponsors and speakers for the 2021 year. Please contact us if you have a topic that you feel would be beneficial for the chapter. We can start scheduling for next year as well.

Are you interested in taking the CPD exam this year? ASPE is offering two virtual review classes in 2021 on February 13, 14, and 20 and February 27, 28, and March 6 to help you prepare to take the 2021 Certified in Plumbing Design (CPD) exam. Registration for these classes includes a CPD practice test (a \$50 member value). See the ASPE website or ASPE Pipeline for information on registration.

**Until next month,**

**David Townsend, CPD

Connected in quality.

**viega**

Quick, safe connections on large diameter gas lines.

Viega MegaPress(R)G requires no open flames or added cost of fire watch, so projects are safer and more profitable. Installers can secure gas pipe up to 4" in 16 seconds or less, saving 60-90% on labor costs. That's why professionals choose MegaPressG - the trusted press connection method approved for gas lines 1/2" to 4".

**Tech News Now:**

Greetings,

We had a great turnout for our January meeting. There were 34 members in attendance. Our largest group yet this season! Thank you all for taking part in the meeting.

Tom Halley of Sencillo Systems did a fantastic job on a very interesting topic. There was some really good conversation between Tom and our members. We thank Tom for his time and efforts.

Our February meeting will be hosted by Jim Lyon of S15. Jim will speak to us on “Thermostatic Mixing Valve Design and Performance.” We thank Jim for his support and time. Our meeting will start at 12:00 pm. via ZOOM. The link to the meeting is included in our newsletter along with the evaluation form. Please send me your completed Meeting Evaluation for CUEs to [blee@aspinall.com](mailto:blee@aspinall.com). Feel free to contact me if you have any questions.

Although we continue to conduct our meetings virtually, please try to take part of all our meetings.

Thank you all for your support!

**Bryan Lee**

We will have our Virtual monthly meeting this month on Thursday, February 18th. at 12:00 pm EST via our local ZOOM meeting. Please do not miss out on this opportunity! We are hosting this online meeting and not through the ASPE Education website this time. This meeting will be free for all attendees.

The meeting will be the following:

**January Speaker: Jim Lyon – S15**  
**Topic: Thermostatic Mixing Valve Design and Performance**

Sponsored locally by S15 Inc.

**Central Indiana ASPE is inviting you to a scheduled Zoom meeting.**

Join Zoom Meeting

<https://us02web.zoom.us/j/83731078676?pwd=TTUzSWRnWStCM3lyVIZ2Q2loek5yUT09>

You can register on our website or through the newsletter and the meeting link will be in the newsletter. If you are needing CEUs for the meeting, please request the evaluation form from our VP Tech, Bryan Lee at [blee@aspinall.com](mailto:blee@aspinall.com) You will need to complete the form and email it back to Bryan to receive your CEUs.

Please add this meeting to your calendar!

Continued Education Credit
Seminar Evaluation Form

Topic: Thermostatic Mixing Valve Design & Performance Date: FEBRUARY 18, 2021

Name: \_\_\_\_\_

(Please Note: Questions 1 thru 8 require a response to receive Continued Education Credit)

Please identify three items you learned or that were refreshed as a result of taking this course:

- 1.
2.
3.

Please rate the following aspects of the training (1-5 rating; 1=Poor 5=Excellent):

- 4. Seminar Content: 1 2 3 4 5
5. Audio/Video: 1 2 3 4 5
6. Examples/Demonstrations: 1 2 3 4 5
7. Presenter's Knowledge of the Topic: 1 2 3 4 5
8. Applicability to a Plumbing Engineer/Designer: 1 2 3 4 5

Seminar Enhancement Suggestions (optional):

- 9. What topic(s) or concept(s) should be considered for future seminars?
10. What additional resources would be beneficial to you as a professional?

Please return your completed Evaluation Form at the Sign-In Desk or you can email it to Bryan Lee at blee@aspinall.com. Thank you.

**DOUBLE DOWN ON EDUCATION**

2020 is in the history books but unfortunately, 2021 is starting out right where we left off. Not necessarily a good thing.

As I type, the nation and the world are watching the peaceful transition of power from one U.S. President to another. No matter how you voted, every election has consequences. Even if you did not vote, it still has an influence on the direction of our constitutionally limited Republic. What comes next is anyone's guess.

Education is more important today than at any time in human history. Not only do we need to understand science, technology, engineering, and math (STEM) but we must educate ourselves on history too.

Writer, philosopher George Santayana is credited with the phrase "Those who cannot remember the past are condemned to repeat it". Sir Winston Churchill modified the quote in a speech to "those who fail to learn from history are doomed to repeat it".

Churchill went on to say that "we must always look forward, but we have to understand our history in order to not repeat the mistakes of the past. I have seen too many instances where people continue to pursue wrong courses of action because they do not take the time to think critically about what has happened in the past".

Rewriting history to suit ones own best interest will not change the ultimate outcome of any future event. If you have not done your homework reviewing the facts and performed a critical analysis on the root-causes of past events, then expect similar results.

One of the most brilliant thinkers in human history, Albert Einstein is quoted as saying "Insanity: doing the same thing over-and-over again and expecting different results".

We cannot pick-and-choose which facts we want to reference when seeking an answer to a problem that confronts us to arrive at a preconceived notion of reality. Do not confuse facts with opinions.

The good, bad and ugly events of human history are there for us to use to our advantage. Putting our heads in the sand, denying events ever happened, or placing blame where it does not lie will come home to roost. It may be after we have left this great planet Earth, but like Haley's comet, we can predict a return.

There is a reason our forefathers fought for our right to free speech, to bear arms, and individual rights. They understood the failures of every government that preceded the formation of the United States of America and gave our country a chance to do better.

Little is known about Elizabeth Willing Powel, but she asked one of the most important questions in the 245-year history of our great nation. On the final days of the Continental Congress in 1787, Americans gathered on the steps of Independence Hall waiting the hear the news on the type of government our founders had created. Ms. Powel asked Dr. Benjamin Franklin; well doctor what have we got, a republic or a monarchy? Franklin replied, "a republic if you can keep it".

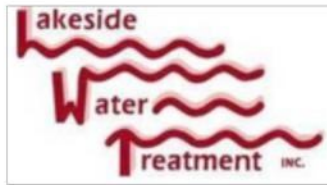

STEM for plumbing design, installation and operation of building water systems must include facts from past successes and failures, not opinions, for us to minimize risks to humans from waterborne pathogens. Unfortunately, we need science-based research to perform our critical analysis. These are just some of the challenges we are facing in 2021 and beyond.

I pray for continued success of our nation based on facts, not on opinions or party politics using "selective memory". If not, we are doomed to repeat past mistakes.

# HELP WANTED

Mid/ Upper Level Plumbing Designer:

GMB Architecture + Engineering has an opening for a mid-level plumbing designer in their Indianapolis office.

Applicants must be able to design and layout plumbing systems for various building types (i.e. K-12, higher education, Industrial, corporate, etc.).

Applicant must be proficient in Revit/ CAD to create plumbing documents. GMB offers a flexible work environment and emphasizes personality/attitude/values/etc.

To apply or to receive more information about the position, please contact Andre Maue at [andrem@gmb.com](mailto:andrem@gmb.com)

RQAW: PLUMBING DESIGNER WANTED:

PLUMBING DESIGNER:

1. Applies knowledge of codes and construction industry standards to develop appropriate plumbing designs.
2. Work successfully in a team environment.
3. Perform field investigations to determine existing conditions.
4. Create schematic design reports and scope documents.
5. Prepare construction documentation, including drawings, piping diagrams, equipment selection, select plumbing fixture types, developing schedules, and edit specifications.
6. Review construction submittals for compliance with contract documents.
7. Minimum of 5 years' experience in Plumbing Design.
