**Gary Borgmann, CPD  
President, C.I. Chapter of ASPE**

**From the President:**

I would like to wish everyone Happy New Year! The past couple years have had their challenges and I'm sure this one will too. Just try to make the best of it and soldier on. Really, that's all we can do. The alternative is to crawl up in a ball and wait for it to go away!?! Not me! I'm looking forward to finding ways to work around those challenges and still enjoy this new year.

Another thing to look forward to is some new technical programs at our ASPE meetings. For now they will still be in-person. Bryan Lee is working on some new topics, but we could still use some sponsors. If you would like to be a sponsor, be sure to contact Bryan, or me. Even if you don't have a program, we can come up with an ASPE program to present.

If you are looking for work, or needing help at your firm, don't forget to consider our newsletter for posting job opportunities. I've spoken with several colleagues lately and several firms are looking for some help, and there are some of you that are needing employment too. Maybe we can help connect you! Don't forget that attending our monthly meetings is also another way to network. If you haven't been to a meeting lately, we've been holding raffle drawings at the meeting for our ASPE members. There's some serious bucks involved, so be sure to join us for your chance to be a winner. Our next meeting is on Thursday January 20<sup>th</sup>. You'll find more details elsewhere in this issue.

See you at the next meeting!

**Best regards,**

## **Tech News Now January 2022:**

Greetings,

Happy New Year to our Central Indiana ASPE members. We hope the new year is starting off great. We look forward to seeing you at our 2022 meetings.

Our January meeting will be presented by Todd Green of Charlotte Pipe. Todd will present to us on the Applications of Cast Iron. The presentation will focus on the following as it relates to the presentation topics:

- Applications for use
- Function
- Cost analysis
- Influencing design factors

Our Central Indiana ASPE Chapter thanks Todd for his support and time to present to us.

Our January meeting will be held on January 20, 2022, at the Northside Events and Social Club. Time for fellowship is 11:30 am to 12:00 pm. The presentation and lunch start at 12:00 pm. We look forward to seeing all of you there. Please RSVP through the newsletter or [ASPE.org](http://ASPE.org) website.

Please feel free to invite others that would benefit from being a part of our ASPE group.

Thank you all for your support of our Central Indianapolis Chapter!

# MAKE THE SWITCH to

**Less Time - More Profits - LESS LEAKS!**

## WHAT OTHERS HAVE FOUND...

*"...Pro-Flex CSST not only provides a cost to cost saving against the other manufactures of CSST but is also an easier product to work with . While cost is higher than black iron the speed and reliability of Pro-Flex allows us to install faster without the worry of added cost of leaks..."*

Contact Dan Cummins  
for more information!  
317-496-1288

*"When we work on any of our gas installs that require far or short runs we usually turn our heads to Pro-Flex CSST Gas Pipe. The pipe is easy to work with and is very forgiving in every way. What I like about the product is the gasket and duo FIP/MIP connections it provides. With the duo connection adapters, one adapter can be used for either MIP or FIP, I don't have to buy two different types of fittings to prepare for my jobs. As for the gasket being within the gas connection, we don't have to crank the fittings like we had to do with previous gas pipe. Not to mention, we have less leaks (a lot less) close to none AND we are able to reuse the fittings - unlike other manufactures that are not approved to do so. It has definitely become our go to for gas piping when we want to get it done quick and when we don't want call backs!" - Terence*

# ASPE Convention & Expo **2022**

Indianapolis // September 16-21

ASPE's biennial [Convention & Expo](#) is the only event designed to enhance the professional development, technical education, and career growth of plumbing engineering professionals. To achieve that mission, ASPE seeks expert industry speakers to present 75-minute, nonproprietary technical sessions that address current industry trends and technologies at next year's event in Indianapolis on September 16–21.

Presentations should be geared toward beginner, intermediate, or advanced learners. Topic areas that will be considered are:

- Codes and standards
- Water quality
- System design
- Sustainability
- Construction
- Specialty design
- Fire protection and life safety

Sessions can be a lecture, panel discussion, or hands-on demonstration.

Visit [aspe.org/2022-call-for-presentations](https://aspe.org/2022-call-for-presentations) to submit your presentation for consideration. All completed proposals will be anonymously reviewed by the ASPE Education Committee, and all submitters will be notified of the committee's decision by early May 2022.

The deadline to submit a presentation proposal is February 28.

## EMPLOYMENT OPPORTUNITIES

### About Primary Engineering

Primary Engineering is a consulting MEP design engineering firm with offices in Indianapolis, IN and Fort Wayne, IN providing design services for commercial HVAC, plumbing, electrical power, lighting, and communication systems to clients for commercial projects. We are focused on innovative engineering design and providing our clients unmatched service to their project needs. Our projects are located throughout the mid-west generally however we have projects located on multiple continents and throughout the US.

### Job Description

Seeking candidates to assist with Revit design and AutoCAD drafting in the consulting **MEP design industry**. Candidates must have excellent communication skills and exhibit a desire to constantly learn and grow in the industry.

Job responsibilities and duties shall include, but are not limited to the following:

- Assist with creation of technical drawings for commercial HVAC, Plumbing, and Electrical systems using AutoCAD and Revit MEP.
- Perform field verification of existing conditions for renovation projects.
- Utilize Matterport 3D scanning camera to collect field data to incorporate into design models with point clouds.
- Coordinating with all design team members both in-house as well as outside design partners.
- Assist with design of systems at levels based on experience.

Compensation will be commensurate with experience. We offer health insurance, a company retirement plan, paid vacation, paid holidays, summer hours, and reimbursement for continuing education.
