AMERICAN SOCIETY OF PLUMBING ENGINEERS
 A NON-PROFIT ORGANIZATION - Local Chapters
 are not authorized to speak for the Society

**Gary Borgmann, CPD
President, C.I. Chapter of ASPE**

From the President:

It was great to see everyone at the October ASPE Luncheon. We had a nearly record attendance with 35 people joining us! It was real nice to see lots of new faces, as well as our loyal regulars. We are so glad you took the time to join us. A special thank you to Randy Vogt and Rick Bayne with Disney Mclane for sponsoring the luncheon and presenting a great program on corrugated stainless steel gas piping sizing and applications. Our November meeting will be sponsored by Traci Halle with Kohler Company which will cover the latest technology in Commercial Restrooms. Bryan Lee has more on that in his article in this issue.

Your Chapter Officers had a very busy summer making preparations for the ASPE Convention and I would like to thank all for them for their hard work and dedication. In addition to the Convention preparations, your Chapter Officers were also planning our annual Golf Outing in August! Lots of hard work went into both events and they deserve a huge Thank You! In David Townsend's October article, he did a nice job thanking all of our volunteers for their hard work with gift bag stuffing and staffing the Hospitality Lounge and Tech Sessions, and I would like to add a big thank you to all of the manufacturer's and our local Reps for their contributions and support. We couldn't have done it without their help!

I want to thank David Townsend for filing in for me last month while I was out having fun! Most of your Chapter Officers (and Convention Delegates) spent the week of the convention downtown attending either the ASPE business meetings, the Expo, or scanning the attendees into the tech sessions. One day later, Sandy and I were flying off for 3-weeks in Europe! We barely had time to do some laundry and re-pack for our trip! Un-related to the plumbing industry... I'd like to share a few things from our adventure abroad... We had a big lay-over in NY at JFK. If you find yourself stuck at JFK yourself, you should check out the TWA Terminal/Hotel. It is time capsule from 1960 with the TWA Terminal that was designed by Eero Saarinen who also designed the St. Louis Arch among other great works. I've included a few shots of the terminal here for your viewing pleasure.

Cont. on next page...

Cont. from the President...

I

Within the terminal there are a few other museum type exhibits including a typical 1960's living room and architect's office which some of us older folks will recognize with fond memories.

Cont. from the President...

Our trip also included a fun overnight stop in Amsterdam which included a nice dinner along one of the many canals followed by an evening canal boat tour. Very early the next morning we were standing in a very long line at the KLM desk only to find out we were in the wrong place! With 30 minutes to catch our flight we found ourselves running to the next terminal to a dimly lit ticket desk to get our boarding passes for our Slovenia flight. Amazingly, we did make our flight! We spent a week in Slovenia which is a beautiful and friendly country. After a relaxing week there, we headed across the border to Italy. Italy is also a beautiful country! Ancient history is in your face everywhere you go! Most of Europe is this way, but Italy seems to be more concentrated. Being a plumbing designer, we did start to appreciate our plumbing standards, and bathroom designs back home. I've included a photo of our B-n-B sink drain configuration. I chose not to take photos of the toilets.

It seems that anything goes! There are still lots of pay toilets around too! To avoid those, we would typically stop at a café for a little rest and beverages, and to use their facilities. As I said, water closet used throughout Europe are a bit strange, not like what we are used to here in the states. Most are still tank type, even in public restrooms, but they do include two buttons for #1 or #2 flushes. The #1 option seems to flow a very large amount of water, so I'm not sure what's up with that! Enough of my toilet musings. As I said, Italy is a very beautiful country and besides the cities, we were able to see quite a lot of the countryside, albeit by way of high-speed rail. We did love the train travel we experienced. It was amazing to be smoothly traveling at +/-180 MPH across the countryside full of vineyards, pastures and even a few cornfields. As much as we did enjoy it, this trip was different than others in the past. It included more walking and train/plane catching which can get tiring. To say the least, we were very happy to be home.

I hope to see you all at the November meeting.

See You There!

Tech News Now!

November

Hello. This month's meeting will be held on November 17th at the Northside Event & Social Club. We are happy to have Traci Hale of Kohler to present to our chapter. Traci will educate us on "Commercial Restrooms Reinvented." Commercial restrooms are used in various settings, from office buildings to hospitals. This course discusses how commercial restroom design can meet the needs of all users through accessibility, universal design, and inclusive design. The public nature of restrooms requires excellent air quality, a trusted level of cleanliness, durability, and water conservation. The importance of fixtures with features including touchless technology, vandalism resistance, and water efficiency is also discussed.

It will be helpful for attendees to pre-register to get their CEUs for the meeting. Please follow the link [AEC Daily Live Learning System](#) to pre-register. There will also be a sign-in link available at the meeting for those who do not pre-register.

We welcome Traci and Kohler and look forward to the presentation.

Our Central Indiana ASPE Chapter would like to thank Ward Flex and Disney McLane for sponsorship of October's meeting.

Thank you to our members for their support of our Chapter and look forward to seeing you at the meeting.

Bryan Lee

VPT Central Indiana ASPE Chapter

Traci Hale Bio:

Traci Hale is a Senior Sales Executive with Kohler Co. She has been delivering her knowledge of the plumbing industry for the past 18 months, spending time with Architects, Mechanical Engineers, Mechanical Contractors, Interior Designers, and Distributors. Traci is an active member of ASPE most recently participating in the 2022 convention in Indianapolis. She also attends monthly luncheons and other events as often as possible. Traci takes a technical and non-technical approach to plumbing fixtures, design, and installation, so that everyone that she is addressing has a clear understanding of the topic at hand. Her techniques include power point presentations as well as hands-on materials to maximize her audience's understanding of the category and to ensure everyone takes away a real-world application of the information.

Applications for the 2023 ASPE Alfred Steele Scholarship Are Being Accepted

ASPE member: If you, your spouse, or your child would like financial assistance toward a degree in engineering, apply now for the **ASPE Alfred Steele Scholarship!** Up to \$5,000 in scholarship monies may be awarded to qualified applicants.

The scholarship is limited to ASPE members and their immediate family members (i.e., spouses and children). Eligible candidates must have a GPA of 3.0 or higher and be in or plan to attend a college, university, or technical school on a full-time basis (minimum 12 credit hours), enrolled in an engineering program. Previous applicants are eligible to apply.

The application deadline is January 31, 2023. It is imperative that the Education Committee receive completed applications before the deadline so they can make a timely decision.

You can download the application package at aspe.org.
