AMERICAN SOCIETY OF PLUMBING ENGINEERS
A NON-PROFIT ORGANIZATION - Local Chapters
are not authorized to speak for the Society

**Gary Borgmann, CPD
President, C.I. Chapter of ASPE**

From the President:

Our annual ASPE Golf Tournament on August 4th was another success. Things started off a little damp, but the rain subsided within an hour or so. The Eagle Creek Golf course was a nice change and the folks there did a great job with organizing, and the food was great! The Eagle Creek Golf Club folks also kicked in some unexpected prize money for our players. I do have to give a big thank you to Aqua Systems for having umbrella giveaways at their tent which was conveniently located at our first hole. Another big thank you to all of our sponsors and players for helping make our annual event a successful and fun day!

With the ASPE Convention and Exposition being in Indy this month, we decided to move our September ASPE meeting to December (date TBD). Your chapter officers just have so much going on with preparations, and the meeting would've been the day before the convention started. If you can't register for the full event, I hope you will at least try to attend the Expo. This is an amazing event in our own back yard with hundreds of manufacturers showing off their latest technology, and ready to tell you all about it. I've been to quite a few and I'm always impressed with the displays and cool new products.

One last thing, I know I've been reminding you a lot about our Membership Appreciation Party at The Slippery Noodle Inn on Sept. 17th, but I do hope you try to join us for an evening of fun and great music from The Gordon Bonham Blues Band. If you haven't sent me your rsvp, please do so as soon as you can. I'm looking forward to seeing you at the convention!

**Gary Borgmann, CPD
President – Central Indiana Chapter, ASPE**

Coming to the
2022 ASPE Convention & Expo
This September

Get Geared Up for ASPE Racing at Indy

We are pleased to announce that the Eastern Michigan Chapter will be hosting ASPE Racing at Indy during the 2022 ASPE Convention & Expo, and all Chapters are invited to participate.

WHAT IS ASPE RACING AT INDY?

ASPE Racing at Indy is similar to a pinewood derby event of Scouts BSA. It will be a timed race in which each car will race four times once in each lane of the four-lane track, thus eliminating any lane advantage. The four race times will be totaled and averaged through a computerized timing system to provide an official race time for each car that will be used in determining awards and prizes. [Eastern Michigan Chapter](#) members will serve as the pit crew for the event, and the Chapter's VPL, William Grayzar, CPD, GPD, will serve as the Master of Ceremonies.

OFFICIAL RACE CAR KIT AND SPECIFICATIONS

A car kit will be supplied to each Chapter free of charge by the Eastern Michigan Chapter. The car kits will be the same as those used in the Scouts BSA program. Racecars are to be constructed within the following parameters. (Also see the instructions included with your official car kit.)

CAR #: You will be provided with an official car number that must appear in some fashion on the top and/or side(s) of your race car.

WEIGHT: 5 ounces maximum (but can be lighter)—minimum weight of 4 ounces is suggested.

LENGTH: 7 inches maximum (but can be shorter).

WIDTH: 2¾ inches maximum, and 1¾ inches minimum between the front wheels and the same between the rear wheels; otherwise, your car will not fit over the track guide rail.

CLEARANCE: 3/8 inches minimum from the bottom of the car to the track (rail) top; otherwise, your car will not clear the track guide rail.

WHEELS: You must use the wheels supplied with your official car kit (or similar BSA official racing wheels available at your local scouting shop).

AXLES: Axles do not necessarily have to be placed in the pre-drilled slots, but the axles (nails) supplied in your car kit **MUST** be utilized.

- >> No bearings, moving, or loose parts are allowed ANYWHERE on or in the car.
- >> The car shall not ride on any kind or type of spring.
- >> Graphite (or dry lubricant) may be added to the wheels until the car is registered and weighed in, but not after. No liquid or oil-based lubricants will be allowed as they can ruin the racing surface.
- >> Magnets are not allowed anywhere on the car as they may interfere with the timing system.

REGISTRATION AND WEIGH IN

1. All cars must be registered and weighed in to be eligible to participate in the event. Members of the Eastern Michigan Chapter will weigh in and collect and impound the racecars during check-in and registration at the ASPE Convention & Expo.
2. If a car is not in compliance with the specifications outlined above, it will be disqualified and will not be eligible to receive awards and prizes. However, at the discretion of the race official, the car may still be allowed to race.
3. If you can't be present for the registration and weigh in period at the Convention & Expo but still wish to participate, please contact the Eastern Michigan Chapter to make arrangements to register and weigh in your car.
4. Cars will be collected and impounded (retained) by the race staff until completion of the event, at which time they will be returned to the participants.

QUESTIONS?

Contact Bill Grayzar at bill@dsonline.com. The Eastern Michigan Chapter looks forward to racing with you at Indy in September!

Tech News Now September 2022:

It's that time of year again when we start our Monthly Meetings and we had to make a hard decision for our September meeting. We, your Chapter Board of Directors decided to postpone the September meeting until December due to the ASPE Convention and our duties as the Host Chapter. We are still looking for Technical Session topics and Speakers, so if you have a suggestion, or would like to present a Tech. Session to our membership, please contact me, or Gary to schedule you in.

MAKE THE SWITCH to

Less Time - More Profits - LESS LEAKS!

WHAT OTHERS HAVE FOUND...

"...Pro-Flex CSST not only provides a cost to cost saving against the other manufactures of CSST but is also an easier product to work with . While cost is higher than black iron the speed and reliability of Pro-Flex allows us to install faster without the worry of added cost of leaks..."

Contact Dan Cummins
for more information!
317-496-1288

"When we work on any of our gas installs that require far or short runs we usually turn our heads to Pro-Flex CSST Gas Pipe. The pipe is easy to work with and is very forgiving in every way. What I like about the product is the gasket and duo FIP/MIP connections it provides. With the duo connection adapters, one adapter can be used for either MIP or FIP, I don't have to buy two different types of fittings to prepare for my jobs. As for the gasket being within the gas connection, we don't have to crank the fittings like we had to do with previous gas pipe. Not to mention, we have less leaks (a lot less) close to none AND we are able to reuse the fittings - unlike other manufactures that are not approved to do so. It has definitely become our go to for gas piping when we want to get it done quick and when we don't want call backs!" - Terence

These and many others that made the SWITCH!
